What Is Outsourcing?

• Types of outsourcing

- › Contractors (staffing)
- › “Boutique” vendors (speciality)
- › Consultants (expertise)
- › “Big Box” vendors (full service)

• Global-sourcing?

• Americas:

- › Argentina, Brazil, Chile, Colombia, Costa Rica, Mexico, Panama and Peru.

• Asia/Pacific:

- › Bangladesh, China, India, Indonesia, Malaysia, the Philippines, Sri Lanka, Thailand and Vietnam.

• Europe, the Middle East and Africa (EMEA):

- › Bulgaria, the Czech Republic, Egypt, Hungary, Mauritius, Morocco, Poland, Romania, Russia, Slovakia, South Africa, Turkey and Ukraine

Gartner Identifies Top 30 Countries for Offshore Services in 2010-2011

Why Use Outsourcing?

- Gain cost savings
- What are cost savings?
- Reduce time to market
- › Compare hourly rates or per unit cost?
- Access to leading practices
- › Compare productivity of the team?
- Create a clearer strategic focus
- › Compare reduction of Total Cost of Quality ←
- Free up internal resources
- Where can you get the biggest bang for the buck?
- Access on-demand capacity and expertise
- › Step back and think it through
- Leverage value additions
- › What outsourcing approach provides all of these things?

... your own approach!

Outsourcing Challenges

- Prepare for outsourcing – evaluate:
 - Labour arbitrage (low cost)
 - Reliability of infrastructure
 - Scalable productive talent pool
 - Low attrition levels
 - Post secondary education levels of team
 - Proximity of time zone / geographical location
 - Ease of travel to / from outsourcing destination (flights, visas)
 - Fit of culture and language
 - Data / IP protection and legal maturity
 - Low geopolitical risks
 - Recognition of outsourcing destination by analysts
- What leads to “failed” outsourcing?
 - Hidden costs erode expected benefits of labour arbitrage
 - Communication issues
 - Remote teams, timezones, language, etc
 - Sub-optimal team size management
 - High attrition or rotation
 - Lack of understanding of business / domain
 - Lack of understanding complexities of project / technology
 - Lack of active management / monitoring
 - Lack of “true” partnering
 - Lack of comprehensive strategy

“Tactical Outsourcing Prevails”

- Gartner 2006: instead of a strategic, formal approach to IT outsourcing, the majority of organizations are undertaking IT outsourcing decisions to solve immediate problems or to achieve tactical, cost-focused results

Most Organizations Lack a Formal Enterprise-wide Sourcing Strategy

Decision Approach	Percentage
We Make Sourcing Decisions on a Case-by-Case Basis	73%
We Have a Formal Enterprise-wide Sourcing Strategy	27%

How To Approach Outsourcing?

- I want to have a partner who can participate at all levels within our projects/teams
- I want to partner with vendor(s) who can supply one or more specific specialized services – We will do the rest with our in-house team
- I want to contract individuals to add to my on-site project teams
- Nothing. I want to keep it all in-house

<http://www.silverpath.com/resources/Silverpath-ProjectSuccessTestOutsourcingSurveyWhitepaper-100909.pdf>

... why not mix it up?

Brainstorming Exercise

- Reasons to Outsource Testing

- Challenges to Outsourcing Testing

©2011 Professional Quality Assurance (PQA) Ltd. -- <http://www.pqa.ca>
9

Design Your Improvement Roadmap

- Build your roadmap by:
 - Identifying the different components of the expressed goal
 - Determining what is needed to achieve each components
 - Determining the gap in your ability to achieve each component
 - Grouping responsibilities / tasks into roles or activity sets
 - Identifying the source / form of the solution
 - Making a plan to move ahead on all improvement areas smoothly
- Learn from others:
 - “We learned that we not only needed to know and convey what we wanted out of outsourcing but that we also needed to learn when we could expect those things to be delivered.”
 - “In hindsight, we would emphasize and prioritize the actions that would lead to a faster ramp-up.”
 - “The piece I would change if I had to do it over again is around cleaning up some of our processes and procedures ahead of time.”

A Multi-faceted Approach @PQA

- Crafting a multi-faceted solution aims to provide a combination of benefits:
 - Cost efficiency
 - Capacity scalability
 - Optimized communication
 - Domain expertise capture / retention
 - Specialized skills access
 - Centralized strategic planning and accountability, etc
- Quick wins and longer initiatives
 - ← both need to be started
 - Take an Agile-like approach to the improvements
 - Be prepared to modify your organization / team structure

... partner to achieve rapid ROI!

Simplistic Exercise: Peaks & Valleys @PQA

- Staff augment a project when it needs it
 - How does this map back to our combination of expected benefits?
 - How does that look from a challenges point of view?
 - Are your needs isolated from the rest of the organization?

... other facets?
